## **Installing Circuit Book Explorer**

To get your copy of Circuit Book Explorer, go to our club website at <u>www.owensoundstampclub.org</u>. At the bottom of the home page are some buttons. Click on the blue 'Get Circuit Book Explorer' button.

You will be taken to another web page with some options for your selection. The installer associated with first option is quite large as it contains images of some of the circuit book pages. These are not necessary but do add additional functionality to the program. Select the second option for the quickest install.

Circuit Book Explorer with Images [203 mb]
Circuit Book Explorer with No Images [7.14 mb]
Circuit Book Explorer only Images [196 mb]

Once you have clicked on one of the buttons you will see a screen similar to this:

Do you want to run or save CBE_No_Images_Setup.exe (7.40 MB) from owensoundstampclub.org?	Run	Save 🔻	Cancel	×
				1

Select the 'Save' option. After the download completes you may see a screen like this:

Don't panic, this is a standard Windows warning. Click on the 'View downloads' button and then you should see a screen similar to this:

竖 Vi	ew Downloads - Internet Exp	lorer	<u> -</u> 20

At this point, if you were to click on 'Run', you would still not be able to run the installer due to Windows protection mechanisms. To enable the program to run you need to **use the right mouse button to click on the highlighted entry**. This will cause the 'context menu' to be displayed:

Copy download link Go to download webpage
Open containing folder
Report that this program is unsafe Rerun security checks on this program

Select the 'Open containing folder' option. A standard Windows File Explorer window will open to the folder where the install program was downloaded with the file highlighted in the list:

Again, **use the right mouse button to click on the highlighted entry**. This will cause the 'context menu' to be displayed:
